

Eliminator 105 Sump Cleaner

- A clear, concentrated, neutral pH liquid cleaning solution
- Designed for cleaning individual machines and centralized systems that use water soluble coolants.
- Completely soluble in water without manual mixing

Regular use of the Eliminator 105 Sump Cleaner keeps your coolant system fresh and clean by

- Dissolving hard water soaps and other residues, which accumulate in hard to reach areas.
- Eliminating breeding grounds for bacteria in lines and other inaccessible areas of machines.
- Providing rust protection.
- Greatly reducing the opportunity for objectionable coolant tank odors.
- Minimizing the opportunity for dermatitis.

Save Time and Money

- Extend coolant life
- Clean and sanitize entire coolant system during regular production activities
- Reduce maintenance down times

Easy to Use ...

1. Add 1 gallon of 105 Sump Cleaner to every 20 gallons of coolant in the sump tank
2. Continue production for 12 to 24 hours
3. Drain coolant and remove sludge from sump tank
4. Flush system with water until it runs clear
5. Recharge with new coolant

PHYSICAL & CHEMICAL PROPERTIES:

Pounds Per Gallon	8.2
Flash point	None
Appearance	Amber
Odor	Charac.
pH @ 10:1 Dilution	10.0

HE&M Saw has a product and accessory to fit all your metalworking fluid needs:

- 101 Synthetic Coolant
- 102 Semi Synthetic Coolant
- 103 Water Soluble Coolant
- 104 Spray Mist Coolant
- 105 Sump Cleaner
- 106 Rust Inhibitor
- 107 Anti Spatter
- 111 Turbo Drill
- 132 Low Temp Coolant
- 701 Refractometer
- 750 Sump Devil
- 806 Hydromaster
