**Experience improved fluid stability and longevity with
HE&M's enhanced line of metalworking fluids,
*ELIMINATOR II.***

- Low viscosity vegetable-based straight cutting oil
- No hazardous volatile organic compounds
- Low toxicity, low odor, and operator friendly
- Reduce HSE issues, such as dermatitis
- High flash point, reduced smoke and misting
- Excellent Lubricity and film strengths
- Increased speeds and feeds
- Decreased fluid disposal costs

**- 100% Biodegradable and more environmentally friendly
than traditional straight cutting oils -**

Available In:

P-210000	1 Gallon
P-210001	4 Gal Case
P-210005	5 Gal Pail
P-210055	55 Gal Drum

Physical & Chemical Characteristics:

Appearance/Odor.....	Clear Amber Liquid/Pleasant
Weight (lb/gal).....	6.95
Flash Point.....	98°C
Kinematic Viscosity @ 40°C, ASTM D445...	10 cSt
