

Model 806 HydroMaster

Proportioning & Dispensing System

The new Model 806 HydroMaster drum or wall-mounted proportioners automatically mix liquid cleaning and sanitizing concentrates with water and dispense the diluted solution into any container (jugs, drums).

Economical to Use, and Environmentally Friendly, too!

HydroMasters are built with high quality, chemically resistant materials and have established a reputation for long life in demanding industrial environments, so they're inexpensive to operate and maintain as well as to purchase.

Beyond the economic benefits of using HydroMasters, their contribution to the easier, more effective use of concentrates makes environmental sense. Use of concentrates reduces solid waste by minimizing packaging which must be disposed of or recycled.

Better Performance of Concentrated Products

Manual mixing of concentrates with water is time-consuming and imprecise - the strength of the diluted solution may be too strong one time and too weak the next. Automatic dilution with the HydroMaster takes this variability out of the cleaning system, so the concentrated cleaning product consistently delivers maximum performance.

Any size container of concentrate can be used with the HydroMaster because there's no need to tip the container to pour the contents.

HydroMasters use water power, not electricity, so concentrates don't have to be located near outlets, just within a hose's reach of a water source. Concentrates are safer to use with the HydroMaster, too. Exposure to the concentrated product is limited only to those times when the proportioner is being moved from one concentrate to another.

HE&M Saw has a product and accessory to fit all your metalworking fluid needs:

- 101 Synthetic Coolant
- 102 Semi Synthetic Coolant
- 103 Water Soluble Coolant
- 104 Spray Mist Coolant
- 105 Sump Cleaner
- 106 Rust Inhibitor

**Proudly
Made in the
U.S.A.**

- 107 Anti Spatter
- 111 Turbo Drill
- 132 Low Temp Coolant
- 701 Refractometer
- 750 Sump Devil
- 806 Hydromaster

Model 806 HydroMaster

HydroMaster Performance Characteristics by Model

Model: 806 • Description: Wall/Drum Mounted
Flow Rate GPM at 40 PSI: 4.8
Approximate Dilution Range at 40 PSI, 1.0 cp:
4.5:1 Min. - 400:1 Max.

Options & Accessories

838 Inlet Water Hose 1/2" x 6' Black

885 Inlet Water Hose 1/2" x 8' Black

886 Inlet Water Hose 1/2" x 10' Black

Benefits

- Increased Productivity of Employees
- Efficient Use of Space
- Enhanced Safety
- Maximized Cleaning Product Performance
- More Conscientious Response to Environmental Concerns

HE&M Saw has a product and accessory to fit all your metalworking fluid needs:
